PROFESSIONAL SUMMARY

Final-year Computer Science (AI) student with experience building production-ready full-stack web applications and AI-powered products. Skilled in React, Next.js, TypeScript, Node.js, Python, SQL, REST APIs, and Data Structures & Algorithms, with experience contributing to an ERP platform serving 20,000+ users.

EDUCATION

Bachelor of Technology (Computer Science and AI)	2023 - 2027
Newton School of Technology, Rishihood University	Grade: 8.0/10.0

Intermediate (Class XII)	2022 - 2023
The Dpsg International	Grade: 75.0%

Matriculation (Class X)	2019 - 2020
The Dpsg International	Grade: 90.0%

INTERNSHIPS

Software Developer Intern	November 2024 - June 2025
Rishihood	Remote

- Built and deployed production-ready **ERP modules** utilizing Shadcn/UI, TanStack Table, Recharts, streamlining multiple campus workflows.
- Integrated **15+ REST APIs** with secure role-based access and optimized state management for **20k+ platform users**.
- Reduced **page load time by 30%** by optimizing frontend performance, improving application responsiveness and user experience.

Frontend Developer	June 2024 - August 2024
Null Class Edtech	Remote

- Built **responsive**, reusable frontend components, for scalable web applications.
- Improved **UI/UX, accessibility, and cross-device compatibility** by optimizing layouts and frontend architecture.
- Leveraged AI-assisted (**vibe coding**) workflows to rapidly prototype and deliver production-ready features based on user requirements.

PROJECTS

luma-calendar (Github) (Demo)	March 2026
--	------------

- Engineered a production-grade interactive wall calendar, later showcased to the TUF (Take U Forward) team
- Developed a **CRUD notes system** with category tagging and localStorage persistence.
- **Implemented keyboard shortcuts, theme switching, and accessible navigation** for an enhanced user experience..
- Designed a responsive, mobile-first UI with Framer Motion animations and dynamic seasonal themes.

DocAgent – AI-Powered Document Q&A System (Github) (Demo)	December 2025
--	---------------

- Built an **AI-powered document Q&A system** with custom retrieval, prompt engineering, and evaluation metrics for accurate, source-backed responses.
- Integrated **Google Gemini API** for chunking, and prompt engineering for accurate, source-backed responses.
- Implemented **OCR fallback** for scanned PDFs and images, improving support for non-searchable documents.

SKILLS

Computer Language: CSS, HTML, JavaScript, Python, Data Structures and Algorithms, Node.js, TypeScript

Soft Skill: Communication Skills, Decision-making

AI / ML: Deep Learning (DL), GenAI, LLM, OpenAI API

Frameworks & Libraries: Bootstrap, React, Tailwind

EXTRA-CURRICULAR ACTIVITIES

- Solved **250+ Data Structures & Algorithms** problems on **LeetCode**.
- Contributed to **HackerRank's InterviewStreet Resume Analyzer** by raising **PR #201**, improving resume evaluation templates.
- Contributed to **TradeClaw** through open-source pull requests, enhancing real-world project feature
